Function No. 70600 - Lease Accounting System	TOPIC LAS REPORTS
	DATE 9/1/93

OVERVIEW

Periodically, and at the time of input, the Lease Accounting System (LAS) produces reports that are used for financial reporting and management. LAS does not have a published chart of accounts. For preparation of financial statements, information that serves the purpose of lease general ledger accounts (GLA's) is presented in these reports. These are briefly discussed in the "PROCEDURES" section below.

PROCEDURES

100 Definitions

LESSEE LEASES

Balance sheet accounts - Only capital lease information is reported in lessee balance sheet (real) accounts. These accounts are found in LEASR - 14E (individual) and LEASR - 21E(roll up) reports.

Leased Property - This asset GLA is used to record the fair value of assets held under capital leases.

Accumulated Amortization - This GLA is a contra account that presents accumulated depreciation of capital leased assets reported in the Leased Property GLA.

(Net Asset is not a GLA, but rather is the difference between the Leased Property GLA and its contra, Accumulated Amortization.)

Current Obligations - This liability GLA presents the current portion (one fiscal year) of the lessee's obligation under capital leases.

Non-current Obligations - This liability GLA presents the non-current (longer than one fiscal year) portion of the lessee's obligation under capital leases.

Statement of Revenues, Expenditures and Changes in Fund Balance Accounts - both operating and capital lease information is reflected in the "income statement" type (nominal) accounts. These accounts are presented in LEASR-01E, LEASR-14E, LEASR-17E (individual) and LEASR-27E (roll up) reports.

Minimum Rentals - This presents rental expense for lessee operating leases for the fiscal year.

The following GLA's are applicable to capital lessee leases and are located under the heading "Capital Lease Adjustments" on the LEASR-17E (individual) and LEASR-27E (roll up) reports.

Gross Rental Expense - This GLA presents total rental payments for lessee capital leases, including executory costs, for the fiscal year. This GLA is not used for financial statement reporting, but is useful for management and reconciling purposes.

Amortization Expense - This GLA presents depreciation expense for the fiscal year associated with assets held under capital leases.

Volume No. 3 - Automated System Applications	TOPIC NO. 70610
Function No. 70600 - Lease Accounting System	TOPIC LAS REPORTS
	DATE 9/1/93

PROCEDURES (Continued)

100 Definitions (Continued)

Interest Expense - This GLA presents interest expense for the fiscal year associated payments on capital lease obligations.

Executory Costs - This GLA presents the executory costs expense for the fiscal year associated with payments on capital leases.

(Pre-Tax income is not a GLA, but is the difference between Gross Rental Expense and the other GLA's presented above. This item is for information purposes and is not used for financial statement reporting.)

LESSOR LEASES

Balance Sheet Accounts - For operating lessor leases, the lessor continues to present asset and related accumulated depreciation information in the balance sheet. These accounts are presented in LEASR-10R (individual) reports. The agency is presumed to already be reporting these assets and related depreciation in the balance sheet, therefore the roll up reports do not include fixed asset and accumulated amortization accounts for operating lessor leases.

Asset Basis - This asset GLA presents the fair value of the lessor's asset leased under an operating lease.

Amortization - This expense GLA presents the depreciation expense of the above asset(s) for the fiscal year. See Statement of Revenues, Expenditures and Changes in Fund Balance reports for utilization of the GLA which is not a balance sheet GLA.

Accumulated Amortization - This contra asset GLA presents the accumulated depreciation for the above asset(s).

For capital lessor leases; sales type or direct financing, the lessor reports investment in these leases as assets on the balance sheet. These accounts are presented in LEASR-11R (individual) and LEASR-21R (roll up) reports.

Current Assets: Net Investment in Direct Financing and Sales Type Leases - The current portion of the receivable associated with the lease is presented.

Noncurrent Assets: Net Investment in Direct Financing and Sales Type Leases - The noncurrent portion of the receivable is presented.

Statement of Revenues, Expenditures and Changes in Fund Balance Accounts - Operating lessor leases report depreciation expense for the leased asset and rental revenue. See also above, Amortization, balance sheet accounts, regarding depreciation expense, on LEASR-10R reports. For rental revenue or income, see LEASR-10R (individual) and LEASR-24R (roll up) reports.

Rental Income Received - Revenue from operating lessor leases is presented on the LEASR-10R (individual) report.

Volume No. 3 - Automated System Applications	TOPIC NO. 70610
Function No. 70600 - Lease Accounting System	TOPIC LAS REPORTS
	DATE 9/1/93

PROCEDURES (Continued)

100 Definitions (Continued)

Initial Direct Costs Recognized - If any Initial Direct Costs are recognized the system will present this information on the LEASR-10R report.

Lease Receipts: Operating Leases - This is the same as rental income received, above. It is presented on the LEASR-24R (roll up) report.

Capital lessor leases report interest income, rather than rental income on the Statement of Revenues, Expenditures and Changes in Fund Balance. See LEASR-14R (individual) and LEASR-24R (roll up) reports. Neither rental revenue nor depreciation expense is reported for lessor capital leases.

Interest on Lease Investment - This GLA presents interest income on receivables associated with capital lessor leases.

200 Lessee Leases

LEASR-20E - Distribution of Leases Processed

The purpose of this report is to provide a summary of the number of Leases, both Capital and Operating that the agency has recorded on the system.

LEASR-21E - Balance Sheet for Period - Capital Leases

The purpose of this report is to present balance sheet accounts to be utilized in preparing financial statements. It also provides a breakdown of assets between the following categories:

- Category
- 01 - Land
 - 02 - Land and Building
 - 03 - Building
 - 04 - Part of Building
 - 05 - Equipment
 - 11 - Land - Transfer of Ownership
 - 12 - Land and Building - Transfer of Ownership
 - 13 - Building - Transfer of Ownership
 - 14 - Part of Building - Transfer of Ownership
 - 15 - Equipment - Transfer of Ownership

Information presented on the report includes the following:

1. The Date, Leased Property Values, Accumulated Amortization, Net Asset Values, Current and Non-current Obligations.
2. The breakdown for each Class of Property includes Asset Balances at Closing Date, Accumulated Amortization (per Class of Property) and the Net Asset Values.

If additional space is needed for presentation of the breakdown by property class, the information is continued on LEASR-22E.

LEASR-22E - Capital Lease Footnote Presentation

The purpose of this report is to complete the balance sheet asset categorization breakdown begun on LEASR-21E (if needed) and presents the information needed to prepare the Capital Lease footnote disclosure.

Information presented on the report include the following:

1. A yearly schedule of future minimum lease payments for capital leases and the present value of the Net minimum lease payments as of the closing date.

Note: The present value of minimum Lease payments equals the combined current and non-current obligations amounts for the current fiscal year presented on the LEASR-21E.

If additional space is needed on LEASR-22E for presentation of breakdown by property class, capital lease footnote presentation may be printed on a separate page labeled LEASR-23E.

LEASR-01E - (Operating Leases):

- A. General Lease Information
- B. Payment Information

The purpose of this report is to present two sets of information pertaining to the operating lease.

1. The top section of the report contains General Lease Information. This is the basic information input into the system for the Lease, and includes the Division Number, Division Description, Lease Number, Lease Description, Type, Classification, Inception Date, Guaranteed Residual, Payment Timing, Category Number and Description, and Penalty.

Note: For Commonwealth of Virginia purposes the LAS Division Number and the Division Description are utilized to designate the fund or account group.

2. The lower section of the report contains Payment Information. The payment stream that has been input is presented.

LEASR-03E (Capital Leases) - Capital Lease Information

The purpose of this report is to present additional basic input which is required for capital leases. This report documents the data items input from LAS forms and reports certain basic computations performed by LAS.

Data presented in this report includes:

1. Fair Value of Asset;
2. Investment Tax Credit;
3. Lessee's Discount Rate;

Note: The lessee's discount rate presented is either the incremental borrowing rate input, or the rate implicit in the comparison of the payment stream to the fair value of the asset.

4. Unguaranteed Residual;
5. Asset Amortization Method;
6. Salvage Value;
7. Asset Amortization Life;
8. Amortization Printout Start; and
9. Amortization Printout End.

LEASR-14E

- A. Balance Sheet for the Period
- B. Future Minimum Lease Payments

The purpose of this report is to provide information necessary for the preparation of the balance sheet and footnote disclosure of capital leases. The information on this report is provided in two separate schedules.

The following information is contained within the two schedules (A. Balance Sheet for the Period, and B. Future Minimum Lease Payments):

1. Date, Leased Property Value, Accumulated Amortization, Net Asset, Current Obligations, Non-Current Obligations and Accrued Interest.
2. From and To Dates, Interest Expense, Amortization Expense, Rental Expense.
3. Schedule of future minimum lease payments under the lease, less executory costs, and less interest. The schedule presents the present value of minimum lease payments.

LEASR-01R (Operating Lease)

A. General Lease Information

B. Payment Information

The purpose of this report is to present two sets of information pertaining to the operating lease.

1. The top section of the report contains General Lease Information. This is the basic information input into the system for the lease, and includes the Division Number, Division Description, Lease Number, Lease Description, Type, Classification, Inception Date, Guaranteed Residual, Payment Timing, Category Number and Description, and Penalty.

Note: For Commonwealth of Virginia purposes the LAS Division Number and the Division Description are utilized to designate the fund or account group.

2. The lower section of the report contains Payment Information. The payment streams that are input are presented.

LEASR-11R

A. Schedule of Interest Income and Reductions in Net Investment by Month

The purpose of this report is to provide a schedule of interest income and reductions in net investment by month.

The following data is presented in this report:

1. Current and Future Net lease receipts;
2. Current, Unearned and Accrued Interest on Lease Investment;
3. The Reduction in Obligation; and
4. Total Lease Obligation.

B. Future minimum lease payments

This section of the report includes net investment in capital lessor leases as of the reporting date and provides a schedule of minimum lease payments to be received. (Sometimes this information may be presented on the LEASR-14R depending on the space needed for the schedule of interest income and reduction in investment).
